

Downloading Graphics from the Internet

- Step 1** Access the Internet using Microsoft Internet Explorer or Netscape Communicator by double-clicking the icon on the desktop.

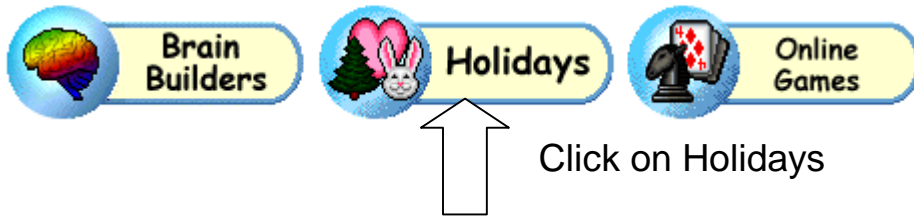

- Step 2** Using the browser go to a website with graphics by typing in one of the suggested websites into the location bar (go to bar).

Suggestions: www.kidsdomain.com
www.state.la.us follow links Kids > LA Facts
www.clipart.com
www.microsoft.com search for clipart

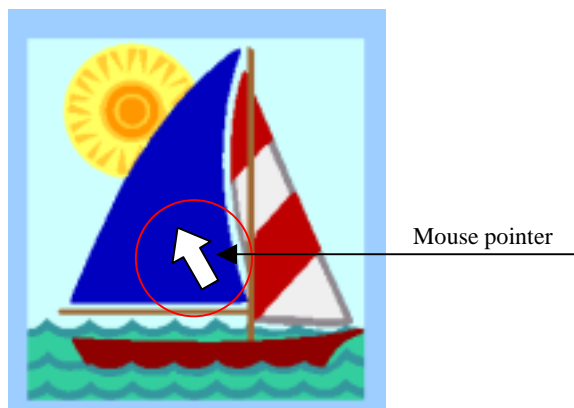

- Step 3** Follow the links to a graphic you like.

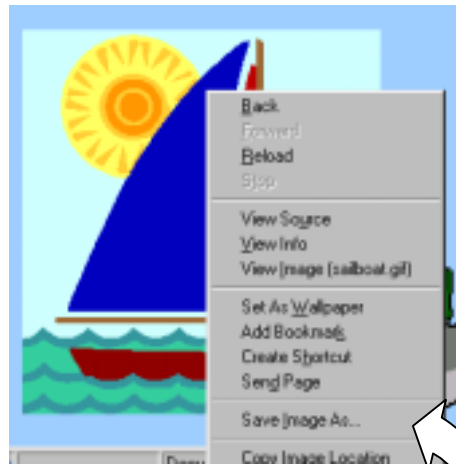

Step 4 Place your mouse pointer in the center of the picture you would like to save.

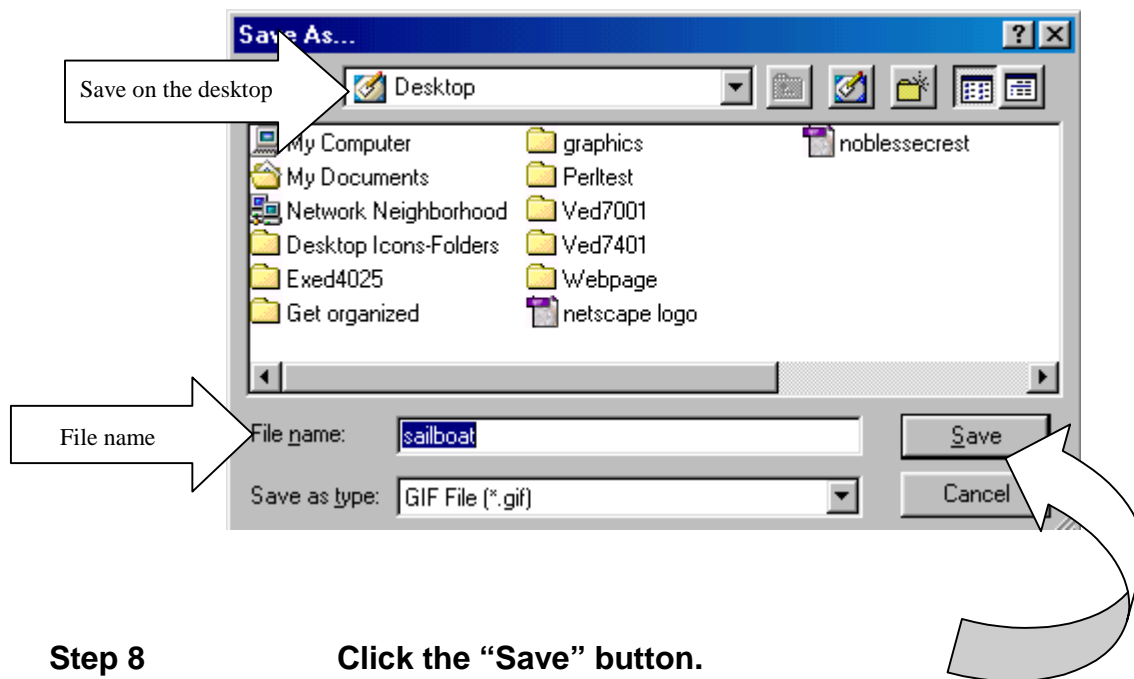

Step 5 Right-click on the picture to get a short cut menu.

Step 6 Left click “Save Image As...”

Step 7 The “Save As” window opens to let you save in the location you want (file name already given). Save on the desktop.

Step 8 Click the “Save” button.

You have successfully saved a graphic to the desktop.
