Name of Planet: _____

Order from the Sun: _____

Diameter of Planet: _____

Density of Planet: _____

Mass of Planet: _____

Mean Distance from the Sun: _____

Surface temperature on day side: _____

Surface temperature on night side: _____

or

Average surface temperature: _____

Absence or presence of rings: _____

Rotational Period: _____

Orbital period: _____

Surface features: _____

Surface gravity: _____

Number of natural satellites: _____

Atmospheric components: _____
